次の英文は、メキシコからの留学生マリア（Maria）に送られてきた手紙と、マリア（Maria）と由紀（Yuki）が会話をしている場面である。これらを読んで、後の各問に答えよ。

Happy 15th Birthday MARIA! February 5th

You'll be 15 on February 5th. How is your new life in Japan? ①Six months ( for / passed / since / have / you ) went to Japan. It is a little sad that we couldn't say Happy birthday to you face to face, but the letter you sent us last week says you have grateful days in Japan. Did you enjoy watching *sumo* wrestling two weeks ago? ②( how / us / to / know / let ) it was. And we are very surprised to hear that you are practicing the *shamisen*. We think it's good to study a traditional instrument of Japan. We are looking forward to seeing you play the *shamisen*.

We are sure that February 5th will be a special day. We've also enclosed a birthday present you might love. We hope you like it.

Have a great time in Japan.

Love from Alejandro & Gabriela

Yuki Hi, Maria. What are you reading?

Maria Hi, Yuki. This is a letter and present from my parents in Mexico. Finally, I'll be 15 next Sunday.

Yuki Yeah, < あ > Actually, I'm going to have a birthday party to celebrate it and make a cake for you next Sunday. I hope you'll like it.

Maria How nice! I'm looking forward to your cake. In my country, the 15th birthday is the day only for girls.

Yuki Only for girls, not for boys?

Maria Right. Of course boys also have their 15th birthday but it's a usual one. Girls who become 15 are not seen as children in my country. Their family and friends have a party to celebrate the birthday. The girls wear special dresses and dance a lot. We call it "*Quince Anos*" in Spanish.

Yuki In Japan, there is a national holiday for both men and women who become 20. Each city and town usually has its own ceremony around that day. They can meet their old friends there and some of them wear special Japanese clothes. This is the way to celebrate *Coming of Age Day*.

Maria Oh, there are many differences between our countries.

Yuki Well, I've heard another story from our English teacher from England. In his country, when people become 21, their father and mother give them a card and a house key is printed on it. That means they can come back home even late at night after their 21st birthday.

Maria So, each country has its own culture.

Yuki Yes, that's right. By the way, are you ready to practice playing the *shamisen*? It's just an idea... < い >

Maria That sounds wonderful! Thanks to you, I have been improving my *shamisen* skills. I want them to see my playing on my birthday.

Yuki Now, we have only 5 days to your birthday party. Let's get started.

4 次の英文を読んで、後の各問に答えよ。

The earth is called “a water planet.” There is a lot of water on the earth but we can’t use most of it. Do you know the reason for this? Most water on the earth is salt water.

Japan has a lot of rain. As you know, the rain water goes into rivers and goes fast into the sea. So, we need to control the rivers to use that water but it is very difficult and we can’t use it well. Then, why do we feel that there is enough water in Japan? One of the reasons is that we get a lot of food from foreign countries. To grow such food, they use much water. We can say that we get that water from them too. We don’t have to use that amount of water for growing food, so we feel that we have enough water in Japan.

People around the world have had problems with water in many rivers. Some countries take water from the same river. If one country uses too much water from the river, the other countries can’t get enough water for their everyday lives. They fight to take the water. People living around the rivers have to share water but they are “rivals.” A long time ago, the meaning of “rival” was ①a person disputing the water in a river.

The UN says that the number of people in the world will increase and in 2025 about two-thirds of the people in the world may not have enough water. Now, some companies are trying to make drinking water from salt water. If they can do ②this, no country in the world will have “rivals.”
